In the past 12 months Ireland has seen a massive upsurge in resistance to austerity. The attempt by the government to impose a tax on water has led to mass resistance from working class communities.

A massive 57% of the country have refused to pay the tax. This has prompted a debate around who actually owns the country's resources.

Clann éirígí invite you to come hear stories from the frontline of this resistance. Hear how communities in Ireland are fighting back against austerity and what are the lessons for the working class in Britain.
